

1st Bitesize Bulletin well received

We received some great feedback about the first bulletin and here is our next instalment.

Young People reminded that Vocational Courses are a viable alternative in an effort to combat record levels of youth unemployment

'NEET' youth figures rise to 18.4% reaching second-quarter high

Did You Know?...

The Sunesis Reporting Suite has the ability to generate over a million different reporting permutations. Simply visit the reports tab, switch on the filter button at the top right hand corner of the page and report to your heart's content!

What our Clients say.....

"One of the main advantages of Sunesis has been the ability to have our learner data shared across all parts of the organisation. Everybody from Assessors to senior managers are now scrutinizing data for any errors or concerns which improves the quality all round. This has helped improve accuracy at SFA audits in turn. Sunesis is the most intelligent and user friendly MI system that I have come across."

Dean Sherlock, MIS Co-Ordinator, RTT Group

Question of the Week

There was a great response to last week's first question and you had some great ideas. Here is this week's offering:

What is the most useful part of Sunesis?

Please contact Sophie Davis with your response to have a chance of winning an exclusive Perspective pen!

Telephone: 0121 5069548
sophie.davis@perspective-uk.com

Coming Soon:

There will be a guided learning hours calculator released within Sunesis, allowing you to keep a record of this for every learner, ensuring they carry out the required number of hours.

2011-12 Funding Update

You can now view and print the new single ILR form for the 2011-12 funding year which is fully populated into PDF format.
